Abbott Streamlines its Supply Chain Routes in the UK

Maidenhead, 12 Feb 2011 – Abbott has announced that it is streamlining its UK supply chain route for pharmaceuticals, nutritionals and diabetes products from 1 March 2011. To improve distribution of certain medicines, Abbott has selected three companies to partner in a reduced wholesaler distribution model to hospital pharmacies, community pharmacies and dispensing doctors in England, Wales, Scotland and Northern Ireland.

Contacts:

Media:
Abbott Press Office
01642 644582

The three wholesalers selected are AAH Pharmaceuticals Limited, Alliance Healthcare (Distribution) Limited and Phoenix Healthcare Distribution Limited.

In addition, a number of hospital products previously only available directly from Abbott are now also accessible from Phoenix Healthcare Distribution Ltd, providing customers with a choice of direct supply or the wholesaler route. Products are: Chirocaine, Klaricid IV, Sevoflurane & Zemplar.

Abbott is working closely with the appointed wholesalers to ensure a smooth transition to the new distribution arrangements.

A full list of the medicines which fall within this arrangement, together with a list of key Abbott contacts for pharmacists only can be found on the company's website – www.abbott.co.uk.

About Abbott

Abbott is a global, broad-based health care company devoted to the discovery, development, manufacture and marketing of pharmaceuticals and medical products, including nutritionals, devices and diagnostics. The company employs nearly 90,000 people and markets its products in more than 130 countries.

Abbott's news releases and other information are available on the company's Web site at www.abbott.com.

###

Abbott products impacted by supply chain changes 1st March 2011

From 1st March 2011 the only wholesalers supplying these products will be AAH, Alliance, Phoenix
